

Dear Provider,

We would like to notify you that, effective June 15, 2015, registered CDAnet™ providers are able to submit RCMP dental claims and receive real-time adjudication results via CDAnet™. Providers will continue to use CDAnet ID/BIN # **610047** and group number **003241** with division/section **000** to submit these claims using their software. **It is very important that the group number has two leading zeros, and that the division/section field is populated with three zeros (ie. 003241 Division/Section 000). Please note: the RCMP ID numbers are formatted as a nine-digit number that begins with an 'R' (ie. R00123456).**

Functionality available for the RCMP group includes:

- V4 claim transactions adjudicated real-time
- V4 same-day claim reversals accepted real-time
- V4 predetermination/treatment plan accepted and acknowledged real-time

If the service requested is the result of a duty-related injury or illness (Occupational Health), this must be clearly identified on the Standard Dental claim form and mailed to Medavie Blue Cross.

At this time, there is no change for Canadian Armed Forces (CAF). CAF claims will continue to be submitted manually.

If you have any questions concerning VAC, CAF or RCMP customers, please contact the Medavie Blue Cross Provider Inquiry Line toll-free at 1-888-261-4033.
