

THE GOVERNOR GENERAL
LA GOUVERNEURE GÉNÉRALE

RIDEAU HALL
OTTAWA

I send my most cordial greetings to everyone attending the 100th anniversary of the Canadian Dental Association.

Our Canadian dentists are among the best in the world. Thanks to your training and professional commitment, we have all benefited enormously from improvements in oral health care and advances in the practice of dentistry.

Over the century, the Canadian Dental Association has provided its members a unified voice. Promoting the value of good dental health and the most up-to-date practices have served the interests of both dentists and the public. With its ongoing program of membership education, the Association has helped build the dental profession's reputation for ethical and quality care.

This centenary is an opportunity to remember the exceptional achievements of Canada's dental profession, and to look forward to another 100 years of providing the best in oral health care. To everyone participating in this milestone event, I give my warmest congratulations and best wishes.

Adrienne Clarkson
