Re: Possible Postal Strike and Impact on Reimbursement Cheques and Statements

As negotiations continue with the postal union, Canada Post Corporation advises that the earliest date for a postal strike would be Wednesday, May 25. If Canada Post will not accept mail shipments to its processing plants, healthcare provider reimbursement cheques and statements will be stored at our suppliers' secure production facilities until the strike is over. As there will be no access to this mail, while it's being held in storage, this means that you will not receive any paper-mail distributed cheque payments via Canada Post until the strike is over.

To avoid a delay in payment, take advantage of the Electronic Funds Transfer (EFT) payment option. EFT payment is an electronic delivery method that allows your bank to deposit your claim payments directly into your designated bank account on the day the payment is issued, and you still continue to receive mailed statements for reconciliation during normal postal conditions. EFT payment is a *fast, accurate, secure, confidential* and *efficient* means of payment delivery. The vast majority of healthcare providers has already signed up for the EFT payment option and therefore will not see their payment delayed as a result of a postal strike.

Don't wait and sign-up today! Simply complete and sign the box below and fax back this letter along with a VOID cheque or official bank letter to Express Scripts Canada, Confidential Fax No. 905-712-0669.
